What is CRYPTO GIFTS ?

The [Crypto Gifts](#) system is based on the gratuitous and decentralized donation of USDT on the BSC network. Probably, each of us dreamed that many people would give us even a very small amount.

[Crypto Gifts](#) is the world's first fully decentralized gift system in which all people help each other realize their personal financial dreams.

Advantages of the **Crypto Gifts** System

Full decentralization.

The project is based on an open BSC smart contract, which guarantees reliability, transparency and eliminates any kind of risks.

The absence of an administrator and a money vault.

No one can manage the project, they cannot change its terms, and the gifts are immediately distributed to the wallets of the partners.

Profitability.

With us, absolutely anyone with just \$8 to start can become a dollar millionaire in the first year.

Idea.

What could be better than realizing both your dreams and the dreams of others at the same time? To see those who create a dream life every day and to be one of them yourself!

Crypto Gifts is a binary structure in which no more than two other people can stand under each person.

The third and subsequent personally invited partners fill out the overall structure from top to bottom, from left to right, while maintaining their connection to the superior partner and regularly generating income for him.

By giving a gift of a certain level, you get the opportunity to receive gifts of the same level. The gift levels are activated strictly in turn.

How our system works

! At the same time, in our system, not only those who actively invite people receive gifts, but also those partners who simply gave gifts to others.

How the Team Bonus Works

Each gift level in **Crypto Gifts** is a separate structure.

Since we have 14 levels of gifts, this means that there are 14 different binary structures in the project. In each of these structures, a Personal bonus is awarded the same way and brings 30% of all gifts given by your personally invited partners.

The team bonus works differently on each of the 14 levels. !

Example:

- At the first level, you receive a Team Bonus from those two partners who have taken up positions in the binary directly below you.

Golden Spark 8USDT

Team bonus (40%)
3,2 USDT

Team bonus (40%)
3,2 USDT

First binary line

How the Team Bonus Works

At the second level, you receive a Team bonus from four partners who have taken positions in the binary in the second binary line.

At the third level, you receive a Team bonus from eight partners who have taken positions in the binary in the third binary line.

Blazing Fiof 10 USDT

Team bonus (40%)
 $4 \times 4 \text{ USDT} = 16 \text{ USDT}$

First binary line

Second binary line

Abundance Stream 16 USDT

Team bonus (40%)
 $8 \times 6,4 \text{ USDT} = 51,2 \text{ USDT}$

First binary line

Second binary line

Third binary line

! Thus, at each gift level, a Team Bonus is awarded from a specific binary line. The higher the level, the lower the binary line and the more people on it.

How the Bonus Pool works

The pool bonus is available to partners who are at levels from Alchemy Touch and above. 10% of all gifts in the system are accumulated and distributed among those who are at these levels.

Example:

Let's say there were 1,000,000 USDT worth of gifts in the system today. This means that there will be 100,000 USDT in the Pool. Let's also imagine that there are 512 people at the Alchemy Touch level, 256 people at the Celestial Nectar level, 128 people at the Radiant Crown level, 64 people at the Regal Gift level, and 32 people at the Throne of Light level.

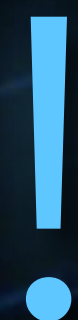

Their income will be:

Alchemy Touch	10%	(10000 USDT/512= 19,53 USDT)
Celestial Nectar	15%	(15000 USDT/256= 58,59 USDT)
Radiant Crown	20%	(20000 USDT/128= 156,25 USDT)
Regal Gift	25%	(25000 USDT/64= 390,62 USDT)
Throne of Light	30%	(30000USDT/32= 937,5 USDT)

Partners can stay in the pool until they receive 100% of the value of the gift level. As soon as this amount is received, the participant is eliminated from the pool. Lost gifts are displayed in both sections of your dashboard.

Compression

In case you did not give a gift for example, level 4, and your partner gives it, then rewards (Personal and Team bonuses) are received by your the closest upline partner who donated this present.

Lost gifts are displayed in both sections of dashboard.
